

WELLNESS PRACTITIONER LOOKING FOR
ALTERNATIVE SOLUTIONS FOR PATIENTS

CONNECTICUT INTEGRATIVE MEDICAL CENTER

Client Profile

Connecticut Integrative Medical Center provides integrative care from their team of practitioners. Their patients are interested in alternative services to support their health and wellness needs. They came to High Falls Hemp NY as the original and trusted New York CBD for the purest, most potent, plant-based products to support their patient's needs.

Business Challenge

Dr. Attar was seeking premium quality, CBD tinctures and formulations he could recommend with confidence, AND, offer it to his patients then and there. We worked with Dr. Attar to advise him on the best selection of our products to stock in his wellness center, and to educate him and his staff on the specifics of High Falls Hemp NY's proprietary process and formulations which make them distinctly different from others in quality, flavor and most importantly efficacy. Dr. Attar has our compact point-of-purchase display. We also set up Dr. Attar's practice with a link and code which provides passive income as an affiliate.

Results

Dr. Attar and his team have been so pleased with the response from their patients that they are constantly re-stocking the shelves due to the demand by their patients for High Falls Hemp NY products. A great success on our mission to educate and provide natural alternatives for people.

High Falls Hemp

NEW YORK

“ I am always interested, where appropriate, in sharing alternative solutions for my patients. There are a lot of CBD products on the market these days, and I'm glad to have found High Falls Hemp. I've used it myself, and also recommended to my patients. I've been getting really positive feedback from my patients, and it has been great to help deal with inflammation, anxiety and sleep issues. Highly recommend”!

- Dr. Ryan Attar, Owner
